

## ***PROJECTS***

<https://communicationmatters.org.uk/what-we-do/projects/>

We run a lot of different projects.

### **Mentoring project**

Mentoring is when an experienced person works with someone new to AAC. They help them with advice and support

We had a project in Manchester in 2017. This was a mentoring project for 6 young AAC users.

The project went well. We are now doing it all over the UK.

This project is for 5 years. The money has come from the National Lottery.

### **Communication access UK**

This is a project to set up a 'Good Communication' award.

Companies and organisations could show that they know how to communicate with people with communication difficulties by showing the 'Good Communication' symbol.

Their staff are trained by the project.

### **Unspoken Project**

The Unspoken Project performed their play *Speechless* at the Communication Matters 2016 Conference.
