Three **iBooks** have been designed to help both families and professionals get started with Augmentative and Alternative Communication (**AAC**).

AAC is used to mean many different ways to help someone communicate. It could be simple things like pointing, signing, writing or drawing. It could also be using a special device like a machine that 'speaks' words for you.

An **iBook** is a book you can read online.

They are:

- Getting Started with AAC: Designing and using alphabet charts
- Getting Started with AAC: Using low-tech, symbol-based systems with children
- Getting Started with AAC: Access to low-tech, symbol-based resources when pointing is difficult

You can find out more about the books by clicking on the button.

You can download the books from the Apple bookstore.
